

# 180 IKEA models for sweethome3d

## **Description**

This is a library with 181 models for sweethome3d, and all of them are based on the real IKEA models that you can find on your IKEA local store.

The library is based on the new IKEA catalog (2012-2013) and all the furniture designs are property of IKEA. We have used the real sizes and proportions to make this library usefull.

The name of every model is the name that IKEA uses to show it in its web site, so you can go to [www.ikea.com](http://www.ikea.com) and find all the models of this library with the search function of the page. If you like how the models look in your home design you can always buy them on Ikea.

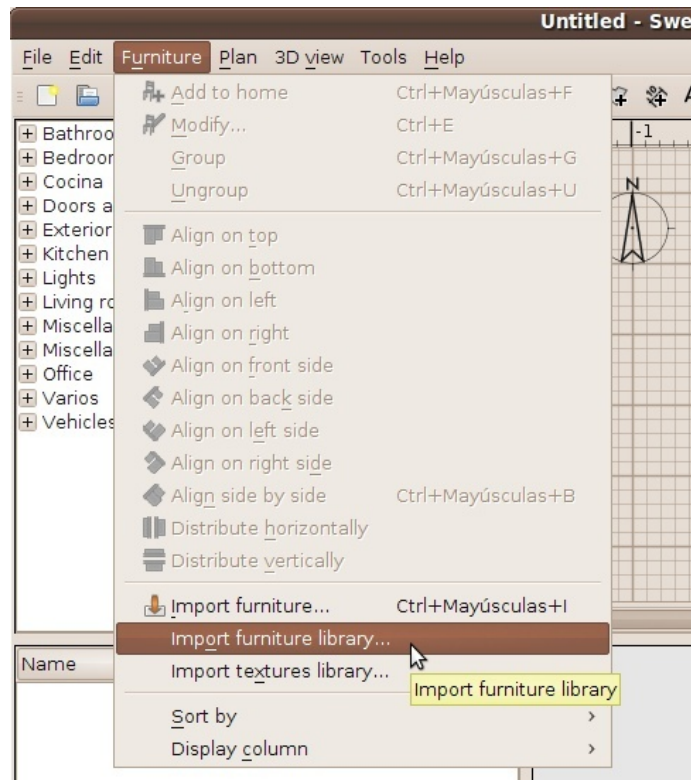

We have added 8 languages to the default "english". If you have selected your language in the **Preferences** menu you will see the library with your language. This is the list of languages availables:

- Deutsch
- English
- Español
- Français
- Italiano
- Polsky
- Português
- Русский
- Svenska

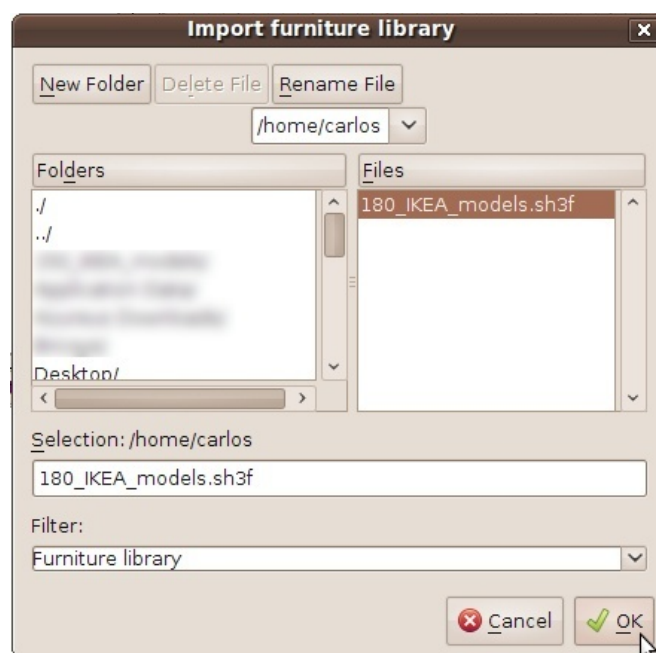

## How to add the library to your sweethome3d application

Once you have downloaded the library from here you will can add the library to your sweethome3d application.

To add the library you must load it with the Furniture Menu. Select the **Import furniture library** option of that menu

Search and select the downloaded file (180\_IKEA\_models.sh3f) and click on the OK button

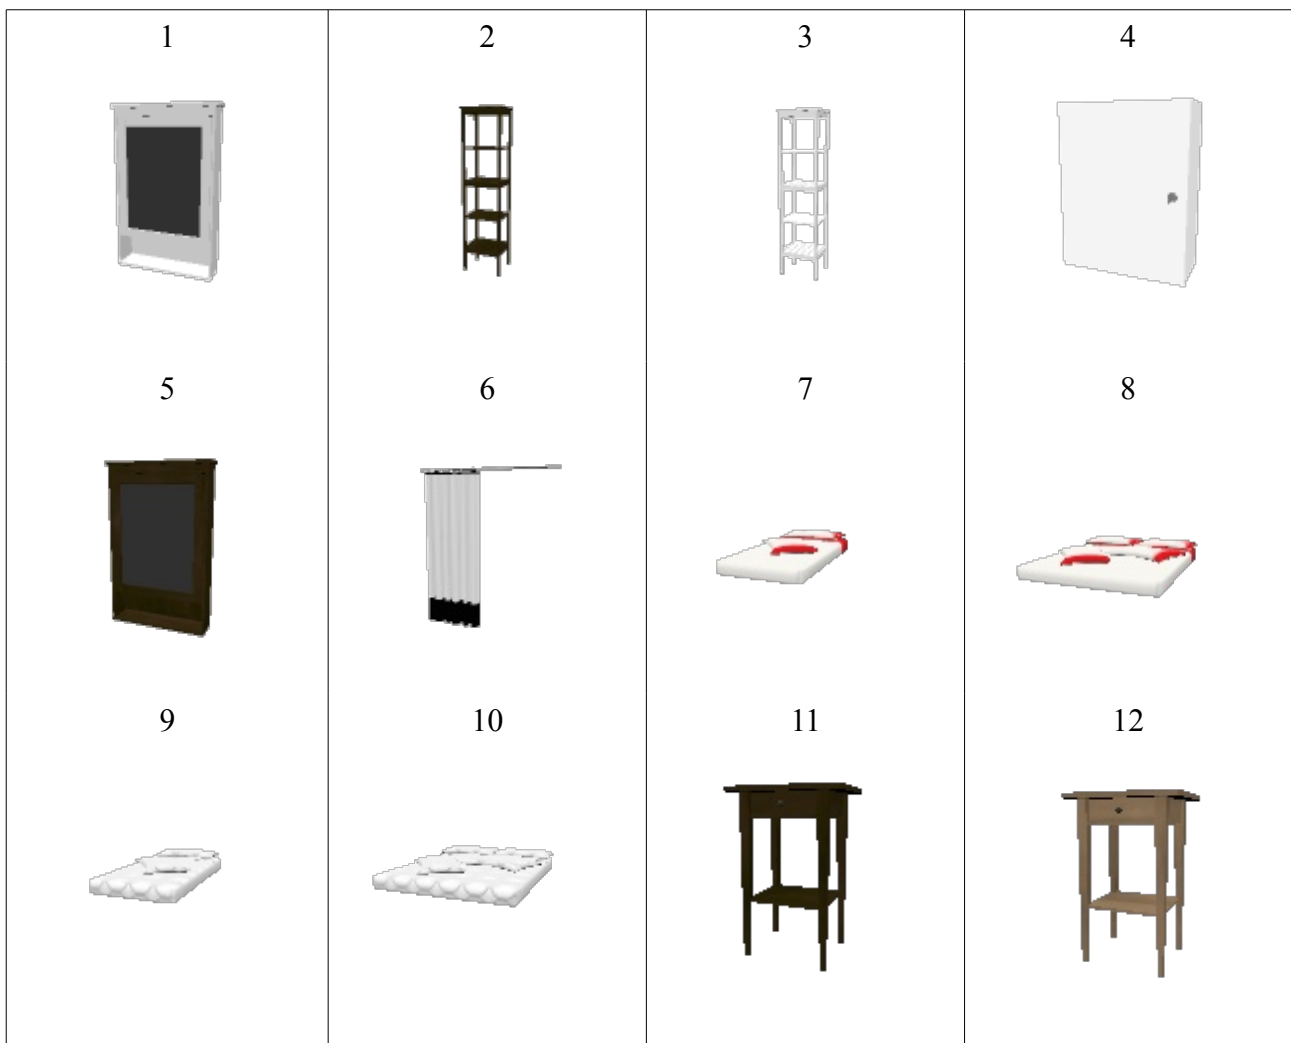

The IKEA library will appear in the models browser of the left sidebar

### ***Models inside the library***

This is the list of all the models in the library. If you want to see the thumbnails of the models you can download the pdf file that you can find on the Documentation tab.
